### FCPX Maps

#### Geographic Location Generators for FCPX

Generate a detailed point-to-point map animation by entering start and end locations using FCPX Maps. Create close-up maps that display real cities and streets of any location in the world, or zoom out to show travel from country to country. Adjust maps in 3D space to get dynamic angles and add additional points to display stops along the way.

**This plugin requires Final Cut Pro 10.3 or higher and Mac OS 10.12 or higher.**
